

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-42 (Canceled).

Claim 43 (Currently Amended). A graphical user interface comprising:

a first parent window including:

a first display control configured to display a child window listing a plurality of first filters having instructions corresponding to a print operation, ~~and~~

a second display control configured to display a list of second filters, and

a third display control configured to activate a help window including help text corresponding to a selected filter.

Claim 44 (Canceled).

Claim 45 (Currently Amended). ~~The graphical user interface according to Claim 43, wherein the first parent window further includes:~~ A graphical user interface comprising:

a first parent window including:

a first display control configured to display a child window listing a plurality of first filters having instructions corresponding to a print operation,

a second display control configured to display a list of second filters, and

a third display control configured to activate a preview application.

Claim 46 (Currently Amended). ~~The graphical user interface according to Claim 43, wherein the first parent window further includes:~~ A graphical user interface comprising:

a first parent window including:

a first display control configured to display a child window listing a plurality of first filters having instructions corresponding to a print operation,

a second display control configured to display a list of second filters, and

a third display control configured to activate a text editor.

Claim 47 (Currently Amended). ~~The graphical user interface according to Claim 43,~~

A graphical user interface comprising:

a first parent window including:

a first display control configured to display a child window listing a plurality of first filters having instructions corresponding to a print operation, and

a second display control configured to display a list of second filters that include
~~wherein the list of second filters comprise~~ a list of last filters selected.

Claim 48 (Original). The graphical user interface according to Claim 43, wherein the second display control displays a list of predetermined filters.

Claim 49 (Original). The graphical user interface according to Claim 43, wherein the plurality of first filters is a list of available filters on a designated storage medium.

Claim 50 (Currently Amended). The graphical user interface according to Claim 43, wherein the child window further includes:

a ~~third~~ fourth display control configured to display a list of available filters on a computer hard drive.

Claim 51 (Currently Amended). The graphical user interface according to Claim 43, wherein the child window further includes:

a ~~third~~ fourth display control configured to display a list of available filters on a printer hard drive.

Claim 52 (Currently Amended). The graphical user interface according to Claim 43, wherein the child window further includes:

a ~~third~~ fourth display control configured to display a list of available filters on a server controlling a plurality of computers networked to a printer.

Claim 53 (Currently Amended). ~~The graphical user interface according to Claim 43,~~
A graphical user interface comprising:

a first parent window including:

a first display control configured to display a child window listing a plurality of first filters having instructions corresponding to a print operation, and

a second display control configured to display a list of second filters,

wherein another child window is displayed prompting a user for parameters corresponding to a selected filter when one of the first and second display controls are selected.

Claim 54 (Currently Amended). ~~The graphical user interface according to Claim 43,~~
~~further comprising:~~ A graphical user interface comprising:

a first parent window including:

a first display control configured to display a child window listing a plurality of first filters having instructions corresponding to a print operation,

a second display control configured to display a list of second filters, and

a companion script file including parameters corresponding to a filter so as to provide filter flexibility.

Claim 55 (Currently Amended). The graphical user interface according to Claim [[44]] 54, wherein the companion script file includes at least one of the following parameters:

- a) a title of the filter,
- b) a name of a text editor to edit the companion script file,
- c) a name of a preview application to preview a result of an executed filter,
- d) help text, and
- e) additional parameters configured to provide flexible use of the filter.

Claim 56 (Currently Amended). The graphical user interface according to Claim 43, wherein the first parent window further includes:

a ~~third~~ fourth display control configured to display a list of third filters.

Claim 57 (Currently Amended). The graphical user interface according to Claim 56, wherein the list of third filters ~~include~~ includes a list of all filters available to the user.

Claim 58 (New). The graphical user interface according to Claim 43, wherein the help text includes information about the selected filter.

Claim 59 (New). The graphical user interface according to Claim 45, wherein the preview application generates a preview of a result of a selected filter.

Claim 60 (New). The graphical user interface according to Claim 45, wherein the third display control is visible after a user has selected a filter and printed data using the filter.

Claim 61 (New). The graphical user interface according to Claim 46, wherein the text editor enables a user to modify a filter script file associated with a selected filter.
